PROJECTS

Barter Place (09/2021 - 09/2021)
- This Project aimed to create a platform for exchanging/donating goods without monetization to build community.
- Users can access the site anonymously to review posts and contact Givers, or log in to provide their own material as well.
- I was responsible for authentication parameters, CRUD, SCRUM and utilise Express and SQL debugging.
- Site: https://project2t3.herokuapp.com
- Repository: https://github.com/Dinimar-Fishboi/Project_2_team3

Help - I'm Bored (07/2021 - 07/2021)
- The purpose of this project was to provide local activities to users based on their location and local weather.
- I was responsible for the UI of the project and sourcing different Front-End frameworks to use for the project.

WORK EXPERIENCE

Customer Service Agent
DFP (Telstra)

08/2020 - Present   *Maryborough*

Worked in the Dedicated Moves Team, liaising with NBN agents, members of the public and technician's to connect consumers to the internet when moving.

Responsibilities
- Efficiently managed cases by analysing REST data, resulting approval ratings of 50% above company average.
- Navigated complex cases to ensure smooth, fast transitions by providing evidence to Government bodies.
- Provided concise and clear instructions to consumers to increase connection speed.

E-Learning Developer
Tallisman Pty Ltd

01/2018 - 12/2020   *Sydney*

Worked in niche team to create online programs for corporate training. Specifically assisted in the development of media and UX and UI.

Achievements/Tasks
- Developed creative materials and learning modules to update an intensive Explosive Safety Materials course.
- Materials were provided to 2000 military personnel and saved 40-50 hours of training per student.
- Client satisfaction generated continuous work for Tallisman Training Solutions.
